Mr. Abhay Sacheti was honored as Chief Guest on World Environment Day for the program been conducted at Butibori Manufacturer's Association, Butibori, Nagpur.

## ENVIRONMENT NEWS:

### Using Less or use it better?

Thankfully, there are those who fully appreciate that plastic has a higher energy value than anything else commonly found in the waste stream. A Japanese company called Blest created a small, very safe and easy to use machine that can convert several types of plastic back into oil.

Though Japan has much improved its "effective utilization" rate over the years to 72% in 2006, that leaves 28% of plastic to be buried in landfills or burned. According to Plastic Waste Management Institute data, "effective utilization" includes not just the 20% that is actually recycled, but also 52% that is being incinerated for "energy recovery" purposes, i.e., generating heat or electric power.

Blest's conversion technology is very safe because it uses a temperature controlling electric heater rather than flame. The machines are able to process polyethylene, polystyrene and polypropylene but not PET bottles. The result is a crude gas that can fuel things like generators or stoves and, when refined, can even be pumped into a car, a boat or motorbike. One kilogram of plastic produces almost one liter of oil. To convert that amount takes about 1 kwh of electricity, which is approximately ¥20 or 20 cents' worth.

The company makes the machines in various sizes and has 60 in place at farms, fisheries and small factories in Japan and several abroad.

"To make a machine that anyone can use is my dream," It says. "The home is the oil field of the future." Perhaps that statement is not as crazy as it sounds, since the makeup of Japanese household waste has been found to contain over 30 % plastic, most of it from packaging.

If we burn the plastic, we generate toxins and a large amount of CO<sub>2</sub>. If we convert it into oil, we save CO<sub>2</sub> and at the same time increase people's awareness about the value of plastic garbage.

- *Akinori Ito , CEO of Blest.*

## CSR ACTIVITY

### Blood Check-up Camp at Vidhyadham Prashala, Shirur

Date: 26<sup>th</sup> July 2011

The MEPL team as a part of the Corporate Social Responsibility had organized a blood check up camp at Vidhyadham Prashala Shirur for teenage girls in the month of February 2011, a total of 185 girls were checked for Anemia by Sahil's Method to check their Hemoglobin level. 85 girls were found anemic; all these girls were given treatment and advised nutritious diet. As a follow up to check the present condition the 85 girls were checked again on 26<sup>th</sup> July 2011 out of which 50 girls have recovered and rest 35 were advised for nutritious diet. This activity was supported by Matoshri Madanbai Dhariwal Hospital, Shirur & Primary Health Center; Shirur. The school authorities appreciated our activity.

## Blood Donation Camp

Our Founder Chairman, Late Shri Shaktikumar M Sancheti 's1<sup>st</sup> death anniversary falls on 31 July 2011.

In his fond remembrance we organized a blood donation camp in our Corporate Office, Nagpur for our employees.

The campaign was conducted on Saturday, 30 July 2011 between 3pm and 6pm.

# HR FORUM

## IT Development @ Nagpur

An extensive IT development plan for entire staff at Corporate Office has been envisaged with the assistance of a reputed IT Trainer from Nagpur, Mr. Prashant Joshi. In the first stage of this process, IT skill mapping of all staff at Corporate Office was done by administering a well designed questionnaire. After conducting the skill mapping of staff, two hours lecture on “Digital Age: Origin, Impact, and Future” was conducted by Mr. Joshi.

This program was well received by the participants with lot of enthusiasm for further pursuit of knowledge. This was followed by 5 day “Basic Training Program” on IT for the first batch from 4 July to 8 July covering staff from Environment and Electrical Division. All other staff at Corporate Office will be covered under this program in due course.

We welcome  
you to our

- Mr. A K Shrivastava, Addl. GM, Civil dept. joining 01 June 2011
- Ms. Aarti Patki, Mgr. Finance, A/C dept. joining 01 July 2011
- Mr. Afzal Sorathiya, IT Manager, IT dept. joining 4 July 2011

## FOOD FOR THOUGHT

### Blind man and the advertisement:

An old blind man was sitting on a busy street corner in the rush-hour begging for money. On a cardboard sign, next to an empty tin cup, he had written: 'Blind - Please help'.

No-one was giving him any money.

A young advertising writer walked past and saw the blind man with his sign and empty cup, and also saw the many people passing by completely unmoved, let alone stopping to give money.

The advertising writer took a thick marker-pen from her pocket, turned the cardboard sheet back-to-front, and re-wrote the sign, then went on her way.

Immediately, people began putting money into the tin cup.

After a while, when the cup was overflowing, the blind man asked a stranger to tell him what the sign now said.

"It says," said the stranger, 'It's a beautiful day. You can see it. I cannot.'

### Few Words of Wisdom

We forget that forgiveness is greater than revenge. People make mistakes. We are allowed to make mistakes. But the actions we take while in a rage will haunt us forever. Pause and ponder. Think before you act. Be patient. Forgive & forget. Love one and all. If you judge people, you have no time to love them.

-- Mother Teresa
