New Years Resolution

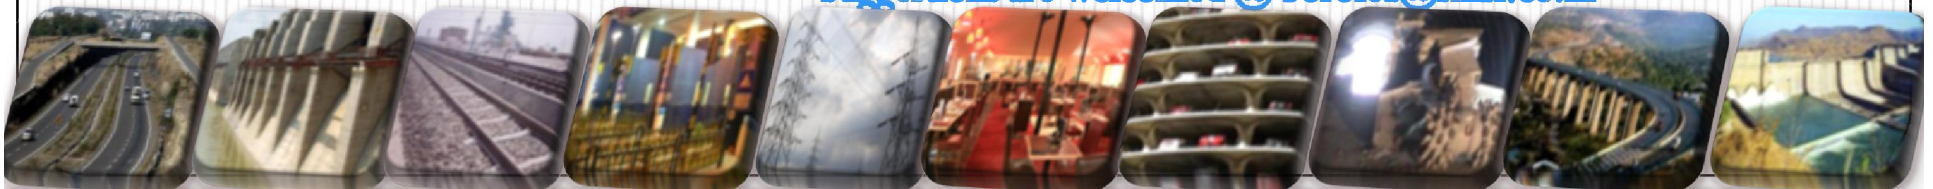

“Hey, what is your new year resolution”. You will hear quite often this during last week of December and first week of January. Many may have doubt that going through the process of resolution is useless because rest of the year we do not even think about what resolutions we have made. In my opinion less than 1% keep track of their resolution. It does not mean that we should not have new year resolution. We always must have purpose in the life and new year is good excuse for making that. When we resolve, our subconscious mind is always working towards achievement of that resolution / purpose.

Major problem is most of us are not clear about what resolution we should make or what should be the mental process of making resolution.

Stephen Covey in his book “7 Habits of Highly Effective People” stressed that every individual must have PMS (Personal Mission Statement). We may call it PMS, purpose, objective, target, goal or Resolution; Aim is to set a future state of situation where we want to reach either physically, emotionally or mentally.

Conti....

*** Suggestions are welcomed @ borolea@smsl.co.in ***

Some one has said that our goals should be SMART. Specific, Measurable, Attainable, Realistic and Time bound otherwise those will be wishes not goals.

As an individual we have following areas for which we must have goals.

1. Self

- A. Body
- B. Mind
- C. Soul

2. Family

- A. Wife
- B. Children
- C. Parents
- D. Relatives

3. Work

- A. Employer
- B. Peers
- C. Subordinates

4. Others

- A. Friends
- B. Neighborhood
- C. Society
- D. Country
- E. World

One must make atleast one goal in each of above areas. Central theme should be :
"I Will Make Positive Difference Around Me In Year 2012"

Good Bye 2011. Welcome 2012.

WISH YOU ALL VERY HAPPY & PEACEFUL NEW YEAR.

COMPANY NEWS:

In verge of Achievements :

1) SMS Infrastructure Ltd bags project to reuse waste water of 130 MLD for power plants

Nagpur river water will be treated at Bhandewadi and supplied to Koradi TPS thus reducing pollution of Gosikhurd as well. This is an unique project of its kind in the country and for the first time the sewage water will be treated on large scale.

The cost of project is 195 Cores. The project is expected to be in operational from 2013.

2) SMS Envocare Ltd in verge to get Accreditation Scheme for EIA Consultant Organizations.

Minutes of 56th NABET, QCI (National Accreditation Board For Education & Training, Quality Council Of India) Accreditation Committee Meeting was held on October 18, 2011 from 1400 to 1730 Hrs. In this meeting SMS Envocare Ltd is selected for the final Accreditation. Final Accreditation is expected to be conducted after three months.

3) Leaders of Tomorrow Awards - Jury Round

Leaders of Tomorrow is a platform that celebrates the success of Small & Medium Enterprises and felicitates true success stories at a national level. This year, the Awards are presided by none other than the Chief Mentor of Infosys, Mr NR Narayana Murthy, who will personally hand over the award to the winning companies.

Our company Maharashtra Enviro Power Limited has been shortlisted by process partners Ernst & Young for the Leaders of Tomorrow Awards 2011. Our company is now among the top 30 companies in the Chemicals & Petrochemicals category.

"We congratulate the team members and give our best wishes to make a grand success"

Visit of Mr Mark Wright and guest from POSCO ICT Seoul Korea @ MEPL on 14th November 2011

Mr Mark Wright of Alter NRG along with Mr Sean J.W. Lee and Mr HyongWon Lee from Seoul Korea POSCO ICT visited the MEPL Facility. The guests were happy with the warm welcome at MEPL.

*Comments from Mr Sean Lee,
CEO CK PAN-ASIA C.T.C;
South Korea.*

*Thank you so much for the
enthusiastic and thorough
tour. After the tour the fog
that was in my head seems to
clear away. I only hope that
we can be great friends and
partners that can help each
other. Thank you once again.*

Visit of Mr Dean Mao, GTS Energy Shanghai, Co Ltd @ MEPL on 23rd November 2011

Mr Dean Mao from Shanghai visited the MEPL Facility to explore the possibilities of Plasma Gasification Technology for Municipal Solid Waste disposal.

Alter NRG is having discussion with GTS Energy Shanghai for supply of plasma equipments for vitrification of fly ash.

Comments from Mr Dean Mao, GTS Energy Technology (Shanghai) Co. Ltd

I had a very fruitful visit at SMS. Thanks Mr Bhandari for the introduction & explaining the plasma operation. The plant tour is very useful for me to understand the operation. This is great experience for me in learning the plasma process. Deeply appreciate Mr. Bhandari for your effort to host me. Thanks.

SMS Envocare Ltd, Plot No: 69, Promenade Road, Opp. Thomas Bakery, Frazer Town, Bangalore - 560005

Above guest house is controlled and managed by Mr. Asif and team.

ENVIRONMENT NEWS

PLASTIC FACTS: QUICK FACTS ON PLASTIC POLLUTION

In just 25 years, our consumption rate of plastic bags has grown from almost zero to our use of over 500,000,000,000 (that's 500 billion) plastic bags annually ... almost 1 million per minute.

- ✓ According to The Wall Street Journal, the U.S. goes through 100 billion plastic shopping bags annually. An estimated 12 million barrels of oil is required to make that many plastic bags.
- ✓ Four out of five grocery bags in the US are now plastic.
- ✓ Plastic bags cause hundreds of thousands of birds, sea turtle and other marine animal deaths every year because these creatures mistake plastic trash for food.
- ✓ Countries like China, Ireland, Australia, Bangladesh have banned or have placed restrictions on single use plastic bags.
- ✓ Taiwan banned plastic bag and plastic utensils as a way to reduce 60,000 metric tons of waste per year they deal with each year.

- ✓ According to the BBC, only 1 in 200 plastic bags in the UK are recycled. Our record in the US isn't any better. Target, the second-largest retailer in the U.S. purchases 1.8 billion bags a year. They just announced a new program to give consumers a nickel back for each reusable bag they bring into their stores when they shop.
- ✓ Target (Australia) completely banned single use plastic bags in their stores in 2008.
- ✓ The average family accumulates 60 plastic bags in only four trips to the grocery store.
- ✓ Each high quality reusable bag you use has the potential to eliminate an average of 1,000 plastic bags over its lifetime.
- ✓ Americans use 2.5 million plastic bottles every HOUR.. Each of us creates 1,500 lbs of trash every year that has to be disposed of that could be recycled with a little effort.

In this prospect just imagine where India is; Though at some places we observe that plastic bags are banned people do pay Rs. 2/- for a bag.

Now you know ... time to pitch in... and do your part!

Remember every piece of plastic ever produced and not recycled still exists!

“JUST SAY NO TO PLASTIC .. DON'T PAY FOR IT”

HAPPY BIRTHDAY

FOOD FOR THOUGHT

DO WE ACTUALLY PILOT OUR LIFE?

As my friend was passing by the elephants, he suddenly stopped, confused by the fact that these huge creatures were being held by only a small rope tied to their front leg. No chains, no cages. It was obvious that the elephants could, at anytime, break away from the ropes they were tied to but for some reason, they did not. My friend saw a trainer nearby and asked why these beautiful, magnificent animals just stood there and made no attempt to get away.

"Well," he said, "when they are very young and much smaller we use the same size rope to tie them and, at that age, it's enough to hold them. As they grow up, they are conditioned to believe they cannot break away. They believe the rope can still hold them, so they never try to break free." My friend was amazed. These animals could at any time break free from their bonds but because they believed they couldn't, they were stuck right where they were.

Moral:

Like the elephants, how many of us go through life hanging onto a belief that we cannot do something, simply because we failed at it once before? So make an attempt to grow further. Why shouldn't we try it again?

Your attempt may fail, but never fail to make an attempt & CHOOSE not to accept the false boundaries and limitations created by the past.
